Radhanagari wall structurally still strong, finds density test

Minor Density Variations Recorded At Few Points

The test, conducted by the Central Water and Power Research Station (CWPRS), found that the dam's overall condition remains sound despite its age

Kolhapur: The main wall of the 70-year-old Radhanagari dam remains structurally strong, with only minor density variations detected at a few locations, according to a density test report submitted to the water resources department.

The test, conducted by the Central Water and Power Research Station (CWPRS), found that the dam's overall condition remains sound despite its age. Of the 10 boreholes drilled in the stone masonry wall, only three recorded density levels below the prescribed standard.

The findings come amid growing focus on the safety of ageing dams across the country. A seven-member expert committee constituted under the Dam Safety Act, 2021, is expected to inspect the dam later this month. The panel will assess the structure and submit its report directly to the Union ministry of Jal Shakti.

"The standard density is considered to be 2.5 grams per cubic centimetre. Of 10 boreholes drilled in the main wall, three recorded a density of 2.2 grams per cubic centimetre. The lower density at these locations increases the possibility of leakage, and further measures may be required," said Praveen Parkar, deputy engineer at Radhanagari dam.

CWPRS carried out the density test using the nuclear bore logging method between June 16 and 20. Officials said the lower readings do not indicate any immediate structural threat but warrant preventive action and continued monitoring.

Parkar said CWPRS would recommend suitable remedial measures based on the findings. "The third phase of the dam-strengthening work will be undertaken after the proposed dam rehabilitation scheme is completed. The expert committee's inspection and its recommendations will help determine the measures required to maintain the dam's safety," he said.

Rajarshi Shahu Maharaj laid the foundation stone of the dam in 1907, and water storage began in 1954 after the project was completed. Minor leakages surfaced about two decades later, prompting strengthening work in the 1970s through grouting and stone support. Officials said those measures successfully arrested the leakages and reinforced the structure.

'Start boat service from Oct 26'

▸ Continued from Page 1

A division bench of Justices Nitin Suryawanshi and Abasaheb Shinde, hearing a suo motu PIL, said it was "shocked" to note that the boat, provided by the disaster management department of the collectorate on the court's directions, has not been operational for over one-and-a-half years as no provision was made for fuel in the motorman's payment. The PIL results from a TOI report published on Aug 27, 2023, which highlighted how children from Kale Wasti of Bhiw Dhanora village in Gangapur taluka were using makeshift thermocol rafts to cross the Jayakwadi dam backwaters to reach school. The village is divided by the backwaters, which enter the Shivna river, leaving residents dependent on a risky water crossing, particularly during the monsoon.

The HC took suo motu cognisance of the report on Aug 29, 2023, converted it into a PIL and appointed advocate Pushkar Shendurnikar as amicus curiae. On Sept 11, 2023, it directed the then district collector to arrange for a boat or motorboat with an attendant, life jackets and floaters to facilitate the children's commute.

HC, in its latest hearing, observed that the respondents appeared to have made only "a show" of providing the boat and the motorman without making any provision for running it. As a result, the children were again forced to commute in dangerous conditions on a raft during the rainy season, the court noted, adding that the PIL was registered precisely for this reason.

The judges also took strong exception to the state's reply affidavit. The respondents had submitted that building a bridge would cost more than Rs 100 crore and pointed out that schools were available 7km to 11km away where the children could study. "We are surprised to know that the respondents are suggesting that children should travel 11km to attend school, without there being any provision for commutation," the division bench of the HC observed.

The high court further directed that the boat facility also be made available to villagers to commute to Bhiw Dhanora village throughout the day. The matter had been heard over three years. On Oct 1, the bench expressed dissatisfaction over the state's failure to act and to file its affidavit-in-reply and granted a final two-week opportunity, warning that the principal secretary of the rural development department would have to appear virtually if the deadline was missed. Assistant govt pleader V M Kagne appeared for the state. HC has now scheduled the matter for Jan 7, 2027.

Former IAF officer duped of ₹4.5 lakh

Times News Network

Pune: Online fraudsters posing as officials of a public sector bank allegedly cheated a retired Indian Air Force (IAF) officer of Rs4.5 lakh by asking him to fill out an online Life Certificate form.

It took place between Oct 18 and 19. The complainant (90) is a resident of Kondhwa. Retired personnel of central and state govts are required to submit a Life Certificate once a year.

Senior inspector Santosh Khetmalas said, "The fraudsters, posing as officials of a public sector bank, made a video call to the retired officer and claimed that they were helping retired personnel fill out their Life Certificates. The caller told him he could fill out the form from home and that the bank would do the rest of the work."

No communication on bounced premium cheque; Parbhani trader gets ₹35.8L relief

Mohammed.Akhef
@timesofindia.com

Chhatrapati Sambhajinagar: Maharashtra State Consumer Disputes Redressal Commission bench, Aurangabad, has held State Bank of Hyderabad (now merged with State Bank of India) and United India Insurance Company Ltd guilty of deficiency in service for not informing a Parbhani trader that his insurance premium cheque had bounced. It directed both to pay Rs35,75,285 as compensation for the loss caused by a fire at his shop.

The bench comprising presiding member Milind S Sonawane and member Nagesh C Kumbre, partly allowed the complaint filed by Kohinoor Bangles, a wholesale bangle shop in Parbhani. The proprietor, Shakil Hazi Irfan Khan, was represented through his general power of attorney holder, Mohd Shaharukh Shakeel Haji. Advocate P N Kalani appeared for the complainant trader; SD Deshpande for the bank and S V Kulkarni for the insurer.

The commission ordered the bank and the insurer to pay the amount jointly and in equal proportion, with 9% annual interest from April 20, 2016, the date the claim was repudiated, until realisation. They must also pay Rs 50,000 for mental and physical harassment and Rs 15000 as costs, again in equal proportion.

The trader had taken a shopkeeper's policy from the insurer since 2008. The policy for May 29, 2015 to May 28, 2016 carried a sum insured of Rs 50 lakh. His shop caught fire due to a short circuit at about 4am on August 17, 2015. He claimed a loss of Rs 45 lakh or more. A surveyor, J C Bhansali and Company, assessed the loss at Rs 35,75,735 in a report dated Nov 18, 2015.

The insurer repudiated the claim, saying the cheque of Rs 10,565 dated May 22, 2015, issued towards the premium, was dishonoured and no premium was paid, so the policy was not in force. The trader, who had a cash credit and overdraft facility of Rs 40 lakh with the bank, said neither opponent had told him of the dishonour. He sought Rs 1 crore.

The opponents claimed they had informed him on May 29, 2015 through insurance agent Mahendra Chhotelal Gadwal. The bank also argued that it was the complainant's duty to maintain sufficient balance.

The commission noted that the cheque bounced on May 27, 2015 for non-arrangement of funds, and the fire occurred about two and a half months later, with no communication to the trader in between. It said the dishonour should have been intimated to him personally given his regular high-value transactions with the bank. It rejected the claim of intimation through Gadwal, who is the insurer's agent and had deposed in favour of the trader, denying any such intimation.

The insurer's contention, it said, amounted to saying it had informed itself. The trader first learnt of the dishonour from the insurer's letter of Aug 21, 2015, after the fire. Had he been told, he might have paid the small amount, the commission observed.

It declined the Rs1 crore claim as the trader had not specified the heads. It relied on the survey report, which he did not refute with any evidence.

Students held with pistols in Sambhajinagar; MP firearm supply link under police scanner

Mohammed.Akhef
@timesofindia.com

Chhatrapati Sambhajinagar: City police on Saturday arrested six youths, most of them students, and seized four country-made pistols and 11 live rounds worth Rs 2.2 lakh. Preliminary investigations indicate the group sourced the weapons from Madhya Pradesh and was selling them in the city.

Police described the case as alarming because several of the accused are college students. "The biggest concern is that the accused are students pursuing professional courses and were found to be in touch with illegal firearm suppliers from Madhya Pradesh and selling them in the city," said commissioner of police Pravin Pawar.

Those arrested have been identified as Shiva Sure (25), Suneet Vispute, Satyam Chate (23), Arjun Lingayat (20), Shrikant Sulthkare (23) and Vishal Bhosale (24). An FIR has been registered at Cidco police station. The six were produced before a court on Saturday and remanded to four days of police custody.

Cidco inspector Atul Yerme said the accused were being questioned to identify the suppliers and buyers.

According to police, the breakthrough came after a team led by sub-inspector Anil Nanekar received information that Sure was carrying a pistol near Surewadi in Jadhawadi. During questioning, Sure allegedly told police that a firearm had been kept at Vispute's house. A search led to the seizure of a pistol and two live rounds.

DCP (Zone-II) Ratnakar Navale said: "During questioning, Sure said the pistol had been kept at the Surewadi home of his friend Vispute. The police searched the house and recovered an iron pistol and two rounds. Sure then said he had got the weapon from Chate and Lingayat."

Police later detained Chate and allegedly recovered another pistol from him. Chate then told police that Lingayat had hidden two more pistols in Jadhawadi.

Acting on the information, police recovered the weapons. Further questioning led them to Shilkhare and Bhosale, who were allegedly found in possession of live rounds. In all, police seized four pistols valued at Rs 80,000 each and 11 bullets worth Rs 22,000. Officers said Chate is a third-year BCom student, Lingayata third-year BCS student, and Shilkhare a second-year BCS student. Vispute studies at a private university, while Bhosale is Class XII-pass and Sure is a BSc graduate working as a contractor.

Journalist accused of extorting ₹10L

Threatened To Publish Defamatory Reports, Foist False Cases

TIMES NEWS NETWORK

Rajkot: Atkot police registered a case of extortion and cheating against a Gondal-based journalist, Ravi Ramani, after a man alleged that he was forced to pay Rs 10 lakh under threats of defamatory news reports and false criminal cases linked to a family land dispute.

According to the FIR filed by Keyur Bhayani, his family owns 11 bighas of ancestral agricultural land in Virnagar village of Jasdan taluka in the name of his father, Gordhan Bhayani.

In 2015, after Gordhan was diagnosed with cancer and got surgery, the family faced financial difficulties and borrowed Rs 15 lakh from Alpesh Donga. A sale deed for the land was executed as security, in favour of a local resident, leading to litigation that remains pending.

The complaint states that Donga is facing multiple cases related to allegedly grabbing farmers' land under the guise of providing low-interest loans.

In 2020, Amit Dhameliya, Gordhan's acquaintance and business associate, introduced the family to Ravi Ramani, who operated an office at Gundala Chokdi in Gondal. Ramani claimed that, as a journalist, he had the influence to help clear their pending court cases and resolve the land dispute.

The complainant alleged that Ramani later demanded Rs 10 lakh for resolving the matter.

When the family expressed its inability to pay, Ramani threatened to publish reports claiming they were filing false complaints to extract money after selling the land. He also allegedly warned that forgery charges would be initiated against them.

Bhayani stated that, fearing public humiliation and criminal prosecution, he sent Rs 10 lakh to Ramani through angadia services from Rajkot to the Gondal market yard in two instalments during 2020.

The FIR further alleges that Ramani took no steps to resolve the dispute after receiving the money and eventually stopped responding to calls.

According to the complaint, Dhameliya, the mediator, repaid Rs 7.5 lakh from his own funds in instalments by 2023 after repeated demands by the family. The remaining Rs 2.5 lakh is yet to be recovered.

Bhayani told police that the family did not approach law enforcement earlier because of continued intimidation. He decided to file a complaint after learning that Ramani had recently been arrested in Gondal in connection with another criminal case.

Atkot police have booked Ramani for extortion and cheating and are investigating the matter.

Goldsmith robbed of ₹3.4L in jewellery at knifepoint

TIMES NEWS NETWORK

Rajkot: A 55-year-old goldsmith was allegedly robbed of gold jewellery worth over Rs 3.43 lakh at knifepoint in Junagadh on Friday afternoon.

Junagadh 'A' Division Police registered an FIR against an identified suspect and his accomplice.

According to the FIR filed by the complainant, Mujibur Rehman Khalilur Rehman Shaikh, a resident of Mondvi Chowk, he runs a jewellery workshop on the second floor of Balkrishna Market in Chhaya bazaar. Shaikh stated that for the past few days, he had been receiving phone calls from an individual identifying himself as "Yashbhai" from Khambhalia, who claimed he wanted gold jewellery custom-made.

On Friday around 3.30pm, the caller arrived at Shaikh's workshop. When asked about his requirements, the suspect requested to see samples of ready designs.

Shaikh showed him ready ornaments prepared for other customers, which included a pair of gold earrings and a chain valued at Rs 3.43 lakh.

Expressing an interest in buying them immediately, the accused asked Shaikh to raise a bill in the name of "Yashbhai Khambhalia," promising full cash payment. He then convinced Shaikh to accompany him to collect the money, initially claiming the funds were at an angadia firm and later stating the cash was in his car parked near Azad Chowk.

At 4.30pm, the duo arrived near the Jamana Gate of the Old Civil Hospital, where a white car was stationed with an unidentified driver inside. The suspect sat in the front passenger seat, pulled out a black bag, and showed cash inside, asking Shaikh to hand over the ornaments.

When Shaikh insisted on counting the money before handing over the jewellery, the suspect brandished a knife from the bag and threatened to kill him.

As the goldsmith resisted, the assailant snatched the packet containing the jewellery, shoved Shaikh to the ground, and sped away in the car toward Chitakhana Chowk.

Overstaying in railway quarters costs employee ₹26.7 lakh

TIMES NEWS NETWORK

Ahmedabad: A railway quarters in Mumbai turned out to be an unusually expensive roof over the head for a Western Railway employee, who overstayed by nearly 20 months after his allotment was cancelled.

The Central Administrative Tribunal (CAT), Ahmedabad Bench, has upheld Western Railway's (WR) decision to slap him with Rs 26.7 lakh in penal rent for the unauthorised occupation.

Mahendra Kashyap was allotted a quarters in a railway colony in Bandra East in 2012. However, Western Railway cancelled the allotment in Oct 2023 after vigilance complaints about illegal subletting and misuse of the accommodation surfaced. Kashyap was directed to vacate the premises immediately, but the instruction failed to translate into an immediate checkout.

The WR initiated eviction proceedings under the Public Premises (Eviction of Unauthorised Occupants) Act, 1971, issuing a show-cause notice on Nov 22, 2023. An eviction order followed on Dec 16, 2024. The quarters was finally vacated only on July 7, 2025.

The WR treated the period from Nov 4, 2023, to July 7, 2025, as unauthorised occupation and calculated penal rent accordingly. It also began recovering the amount from Kashyap's salary at Rs 25,000 a month.

Meanwhile, Kashyap was transferred from Mumbai to Nandurbar, then Vadodara and eventually to Ahmedabad division.

His challenge to the transfer before CAT's Mumbai Bench failed, as did his request to retain the Mumbai quarters on the grounds of his poor health and his son's education in the city.

Kashyap then challenged the hefty penal rent before CAT's Ahmedabad Bench. The tribunal dismissed his application, holding that once the allotment was cancelled, he had no legal right to continue occupying the premises. Health issues and his son's education could not provide a legal shield for the prolonged stay, it said, finding no grounds to interfere with the orders.

The tribunal, however, left a small window open for correction, stating: "It is made clear that if there is any clerical error in the period-wise calculation of penal rent, the respondents shall, upon a specific representation by the applicant, verify the same and make necessary correction, if warranted, strictly in accordance with the applicable rules."

'Statutory prohibition not overriden'

Continued from P1

The court referred to section 11(i) of the Act that says, "If the adoption is of a son, the adoptive father or mother by whom the adoption is made must not have a Hindu son, son's son or son's son's son (whether by legitimate blood relationship or by adoption) living at the time of adoption". It needs mentioning that under Section 11 (iii) of the Act, if the adoption is of a daughter, the adoptive father or mother must not have a Hindu daughter or son's daughter.

The court said, "The fact that the applicants have been taking care of the child, providing him education, treating him as their own son or that the opponent, being his natural father, executed a registered Adoption Deed cannot override the express statutory prohibition contained in Section 11(i)."

Rejecting the application, the court finally said, "The applicants have sought consequential corrections in the birth certificate, Aadhaar Card, school records and other government and semi-government records on the basis of the alleged adoption. Since the alleged adoption itself cannot be held to be valid under the provisions of the Hindu Adoptions and Maintenance Act, 1956, the consequential reliefs also cannot be granted."
